Enclosures That Protect and Perform

Our ABS enclosures are built to perform — from IP55/IP67 junction boxes to IP65 device housings, all designed for reliable indoor and outdoor use. Choose from classic grey or black finishes. With modular sizes, hinged-door options, and the Aqua Combi's patented plate system, installation is fast, clean, and secure.

Combo Suspension Boxes

Agile and adaptable : Swap bodies designed for efficient automation with configurable IP-rated combo boxes.

Industrial Plugs and Sockets

Durable and impact-resistant, the SpeedPRO line ensure safety with IK08 and IP67 protection. Ideal for harsh, particle-rich environments.

Industrial Enclosures

Modular and versatile, the enclosures connect vertically and horizontally, offering watertight and protective solutions for over 12 industrial applications.

Industrial Cable Reels

Durable and safe, this IP55-rated cable reel features a safety cut-out, IK06 impact resistance, and withstands temperatures from -25°C to +85°C. Glow wire tested to 750°C (active parts) and compliant with EN 61242.

Smart, Safe, and Site-Ready: Caravan Unit Range

Our modular caravan units are designed for modern UK parks — available in 17th, 18th, and 2025 18th Edition formats.

Whether you're upgrading or building new, these units deliver compliance, flexibility, and future-proof performance.

Made in Britain and UKCA certified, this IP54-rated unit (upgradeable to IP65) is available in 16A or 32A single-phase and meets 17th and 18th edition regulations. It includes built-in RCBO protection (30mA fault current), with options for front or side mounting. Additional features include MID or pre-paid meters, smart system integration, brass plates, galvanised mounting post, and loop-in/out terminals. Housed in a weatherproof ABS enclosure, it's UV-stabilised, glow wire tested (650°C/850°C), operates from -25°C to +40°C, and is easy to install and maintain — with replacement parts available for all units.

ePitch: Smarter Power Control for Modern Sites

ePitch offers a fast and reliable way to monitor and manage electricity usage — helping guests track what they use, reduce consumption, and pay only for what they need. There are no monthly or top-up fees, and flexibility comes built-in.

From simple monitoring to full switching power control, there's an ePitch option for every type of site.

ref./item
ePitch - Remote Monitoring

Product formats include DIN rail-mounted, retrofit cable mount, and full EHU integration, making installation easy across any site layout.

ePitchM: For seasonals where utility monitoring is essential

ePitchM is ideal for automatically reporting Electricity and Gas consumption for seasonal owners;

No more reading meters and manual entry;

SIM-based connectivity

- 3G & 4G coverage compatible across multiple UK service providers
- Up to 10 years for monitoring and 3-5 years for monitoring & control;
- Simple and convenient credit management

Cloud-based and compatible with PC, iOS, and Android devices.

Add utility monitoring one at a time;

No more carrying the electricity costs for all owners for months before being paid;

Simple, easy to fit in various formats;

Integration with Park Management Systems (e.g. GemaPark, Anytime Bookings, ParcVu etc.).

Addition Services

- Installation & setup support, plus ongoing service contract options available

ePitchM+: For fleet and tourer pitches

ePitch M+ combines all the features of ePitch M with the added ability to switch monitoring on and off;

Maintenance and cleaner mode - customer billing is paused when required.

ePitch Pro is the full solution for Pay-As-They-Use or prepaid electricity metering;

ePitch Platform for full control;

Guest Webapp - no account required;

No top up fees;

Low Balance warnings for guests;

Addition Services

Carbon footprint data included & much more.

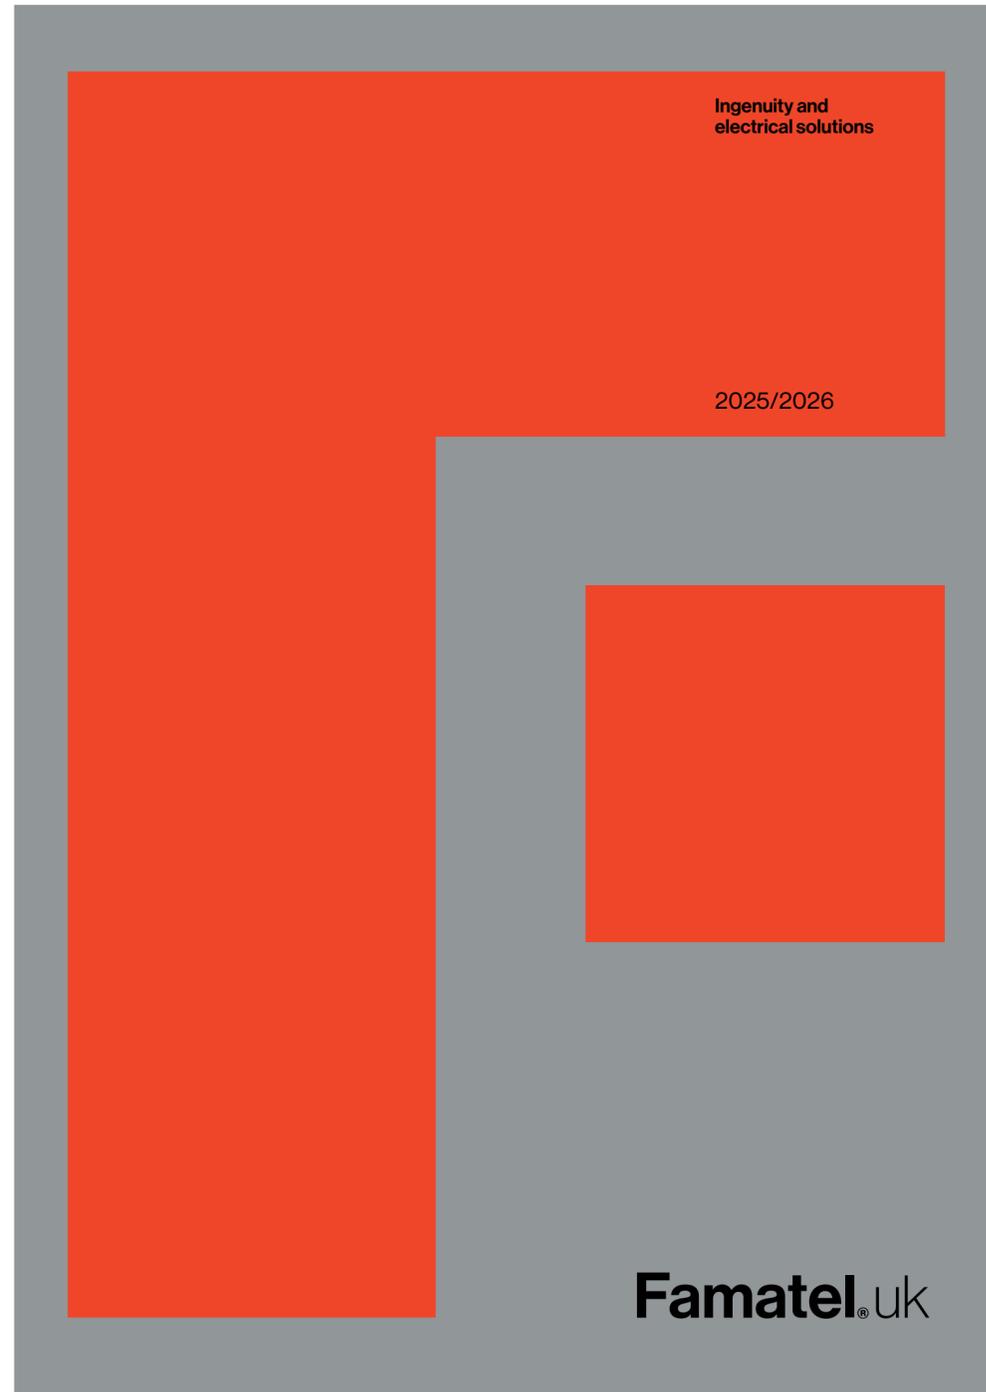

What can we do for you?

WHAT WE OFFER AT FAMATEL UK

- Tailored price lists to suit your business
- Custom-built products to your exact specs
- UK-made, Made in Britain accredited solutions
- Full marketing support to grow your range
- Expert technical advice & diagnostics
- Future-ready innovations and smart tech
- Exclusive tech like ePitch and Acquasoft
- Competitive pricing for large-scale projects
- Fast, UK-based customer support
- Long-term partnerships focused on growth
- Ongoing product development
- Quality, flexibility and attention in every build
